

Railroad Topics

The early evening train of last night, carrying a car of strike-breakers en route for shops west of Albuquerque.

Frank Jolly, station agent at Maxwell City, who was seriously ill at the Las Vegas hospital, has been discharged as cured.

There is a report in circulation that the prairie type engine now in use on the eastern divisions of the Santa Fe will be transferred to the coast line for passenger service.

Mrs. H. C. Koch, wife of H. C. Koch, a clerk in the local Santa Fe office, expects to leave tomorrow for St. Louis. She will visit relatives in Missouri and be absent from the city several weeks.

Five men, with two teams, left Santa Fe yesterday for Moriarty, where they have accepted positions on the proposed line of the Albuquerque Eastern railway. Twenty men have gone from Santa Fe to that point this week.

A. Beamer, foreman of the planing mill department of the local shops, left this morning for Fort Madison, Iowa, where he was called on business. A. L. Newton, formerly foreman of the planing mill is now employed in the Machine shop.

The road bed of the Santa Fe Central railway just west of the Santa Fe depot is being filled in with cinders from the company's local pit. The improvement has been needed for some time, but on account of a scarcity of ballast nothing has been done until this week.

Operators Strike.—The striking telegraph operators on the M. & T. are confident of victory. President Perham of the O. R. T. states that all but six men employed obeyed the strike order and 445 men went out. The O. R. T. propose to fight this out themselves without involving any other union.

The train wire of the Santa Fe Central railway which was early in the week damaged by the heavy rain storms and lightning, is still out of service, but repairs are being made as rapidly as possible. The service of the commercial telegraph companies and the local telephone equipment was interrupted, but not seriously.

J. E. Pifer and wife of Sam Martini, left the city this morning for the Jemez Hot Springs. Mr. Pifer is one of the oldest passenger engineers on the Rio Grande division. Long service at the throttle and the jar of the locomotive has caused a stiffness to set in Mr. Pifer's bones, and this he hopes to leave in the health giving waters of the Jemez springs.

Jay Turley of this city reports that a large engineering corps is now engaged in surveying for a new railroad to run from Durango south, and down the Animas Valley in San Juan county. It is not known who is behind the scheme and various theories have been advanced, the most plausible of which is that the Santa Fe Pacific company is about to build a line. At first it was supposed that the Rock Island or the Rio Grande had sent the surveyors in the field. The new road will afford an outlet for the coal fields in that section of the country.

Laying Heavy Steel.—The Santa Fe management has given orders for the relaying of the line between Wellington and Kiowa. Seventy-one pound steel will replace the light steel now in use. The work is to begin immediately. The line between Mulvane and Wellington has already been relaid with heavy steel.

Consider Need is Past.—Four of the men who have been acting as guards at Santa road house at Emporia, Kansas, ever since the machinists' strike, were laid off last night and three old employees of the road were put in their places. Two will guard the shops at night and one in the day time. This seems to indicate that the Santa Fe considers the strike a failure. The strike in Emporia at no time affected the business of the company. The men who quit have not applied for their old places.

July Earnings.—Gross earnings for all railroads in the United States reporting for the three weeks of July are \$19,725,184, a decrease of 2.7 per cent compared with the corresponding period last year. The loss is small, says Dun's Review. Bonds included are mainly central western, southern and southwestern. The large eastern systems have not yet reported for July, but it is thought that their earnings in July are better than in the three preceding months. Considering the light grain traffic this year and the small movement of cotton and iron, it is rather surprising that railroad earnings are not more unfavorable than the reports show.

El Paso Union Depot.—Vice President H. J. Simmons, of the El Paso Union depot, is receiving a number of bids for the construction of the different parts of the building and its equipment and several other firms have signified their desire to bid on the work.

All bids will have to be in, however, by the 15th of August, as that is the time limit set for receiving the bids. The contracts, however, will probably not be let for several days after that date, as it will be necessary to communicate with President Mudge and the other officials of the company, who are located in different parts of the United States, before the contract is let.—Herald.

PROPOSED DURANGO ROAD.

Read Almost Assured to Clifton, Arizona, Through Western New Mexico.

The people of Durango still entertain the hope that a railroad will be built southward from their town to a connection with Clifton, Arizona,

and other points in that part of the southwest.

The proposed line would pass through a region but little developed at present and concerning the resources of which comparatively little is known. The agricultural valley of the San Juan river in the northwest corner part of New Mexico has become a promising fruit region from which a valuable local traffic would be obtained. Between the valley of the San Juan and the Atlantic & Pacific railroad, now owned and operated by the Atchafalaya, Topeka & Santa Fe, the country consists chiefly of a stock range, and this is true in the main of the region south of that road. But south of the Atlantic & Pacific there are possibilities of mineral development, and in the Mogollon mountains in New Mexico and in those of which Clifton, Arizona, is the center there has been sufficient work done to show that mineral in paying quantities exists. Clifton is a well known copper camp which is believed to have a great future.

The proposed road would be especially valuable as an outlet for Durango and the adjacent country to the south and the Gulf of Mexico. This of itself may ultimately result in the construction of at least of that part which would connect Durango with the Santa Fe system.

Cholera Infantum.
This disease has lost its terrors since Chamberlain's Colic, Cholera and Diarrhoea Remedy came into general use. The uniform success which attends the use of this remedy in all cases of bowel complaints in children has made it a favorite wherever its value has become known. For sale by all druggists.

Live Stock Prices.
Top prices of cattle, hogs and sheep at Chicago averaged as follows for six months: For cattle weighing 1,200 to 1,350 pounds, \$5.74 per hundred; last year's average was \$5.28 for the corresponding six weeks, and that of 1902 was \$7.25. Prices of hogs for the first half of the last three years were \$5.26 in 1901, \$7.04 in 1902, and \$7.12 in 1903. Prices of western sheep varied from \$1.12 per hundred in 1904 to \$5.66 in 1903 and \$5.59 in 1902.

End of Bitter Fight.
"Two physicians had a long and stubborn fight with an abscess on my right lung," writes J. F. Hughes, of DuPont, Ga., "and gave me up. Everybody thought my time had come. As a last resort I tried Dr. King's New Discovery for Consumption. The benefit I received was striking, and I was on my feet in a few days. Now I've entirely regained my health." It conquers all Coughs, Colds, Throat and Lung Troubles. Guaranteed by all druggists. Price 50c and \$1.00. Trial bottles free.

Stage Held Up.
Tuesday's stage from Santa Rosa is not in yet. It was held up shortly after setting out on the return trip to Las Vegas. The Pecos river and not bold bandits, however, is responsible. Don Eugenio Romero, owner of the stage line, yesterday received a telegram that the river was on a rampage, was over its banks and could not be forded.—Las Vegas Optic.

Violent Attack of Diarrhoea Cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy, and Perhaps Life Saved.

"A short time ago I was taken with a violent attack of diarrhoea and believed I would have died if I had not gotten relief," says John J. Patton, a leading citizen of Patton, Ala. "A friend recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. I bought a twenty-five cent bottle and after taking three doses of it was entirely cured. I consider it the best remedy in the world for bowel complaints. For sale by all druggists."

The Boston Idea.
Official figures show that in the last five years the tender in use on the Boston elevated railway has contributed to the death or serious injury of nineteen persons, but it has been uniformly efficacious in protecting the cars from injury.—Chicago Tribune.

Suicide Prevented.
The startling announcement that a preventative of suicide had been discovered will interest many. A run down system, or despondency invariably precedes suicide, and something has been found that will prevent that condition which makes suicide likely. At the first thought of self destruction take Elvett's Bitters. It builds a great tonic and nervous, will build up the system. It's also a great stomach, liver and kidney regulator. Only 50c. Satisfaction guaranteed by all druggists.

Fine Sport Promised.
Gallatin park is being placed in the best of condition for the sports of next week. A big crowd is expected from outside towns to participate in the southwest and some of the horses from the south are expected to catch another notch in their records.—Las Vegas Optic.

Mothers lose their dread for "that terrible second summer" when they have Dr. Fowler's Extract of Wild Strawberry in the house. Nature's specific for summer complaints of every sort.

Hagan Coal Fields.
Thomas P. Hagan, who is in charge of the development work of the Sloan Coal fields in eastern Randolph county, is in the city on a visit to his family. Mr. Hagan states that the development is about finished, one thousand feet in shafts and tunnels having been driven during the last few months. These workings, he says, demonstrate that the coal there is in large quantity and of good quality, al-

though not a coking coal. There is still a force of ten men at work which will be laid off at an early date.—New Mexican.

Refrigerating Piles? Never mind if everything else failed to cure you. Try Quinn's Ointment. No failure there. 50 cents at any drug store.

Filipino Boys Going to Fair.

The Santa Fe had as passengers on delayed No. 2, which arrived Tuesday evening about 7:20, 100 Filipinos who were on their way to St. Louis to see the fair. The boys were in charge of a former Gallup man, William Alexander Sutherland. They have been attending the public schools of California for the past year and next year will attend the various schools of Illinois. All this is at the expense of your Uncle Sam. The World's Fair trip, the expense at the schools and their transportation together with the 75 cent meals which they eat at the Harvey houses along the road all come from Uncle Sam's pocket book.—Gallup Republican.

No Substitute Offered.
Say what you will about druggists offering something "just as good" because it pays a better profit, the fact still stands that ninety-nine out of a hundred druggists recommend Chamberlain's Colic, Cholera and Diarrhoea Remedy when the best remedy for diarrhoea is asked for, and do so because they know it is the one remedy that can always be depended upon, even in the most severe and dangerous cases. Sold by all druggists.

Internal Revenue Receipts.
A report of the commissioner of internal revenue shows that the collections of internal revenue by states and territories, during the fiscal year ending June 30, aggregated \$22,204,044.63.

A Summer Cold.
A summer cold is not only annoying but if not relieved pneumonia will be the probable result by fall. One Minute Cough Cure clears the phlegm, draws out the inflammation, loosens and strengthens the lungs and bronchial tubes. One Minute Cough Cure is an ideal remedy for the children. It is pleasant to the taste and perfectly harmless. A certain cure for croup, rough and cold. Sold by B. H. Briggs & Co., and S. Vann & Son.

Always a Friend.
Suppose, says an unassuming, you were maligned and slandered in certain quarters, and suppose you had a friend who stood up for you, exposed the slander, cleared your character and made you respected and favored where you were previously misunderstood or disliked. Would you not appreciate that friend? That friend is your local paper. Stand by it.

Sick Headache.
"For several years my wife was troubled with what physicians called sick headache of a very severe character. She doctored with several eminent physicians and at a great expense, only to grow worse until she was unable to do any kind of work. About a year ago she began taking Chamberlain's Stomach and Liver Tablets and today weighs more than she ever did before and is real well," says Mr. Geo. E. Wright of New London, New York. For sale by all druggists.

Popular Citizen.
Samuel Neustadt of Albuquerque is the advance guard of the big crowd of Duke City people who will be here for the sports of next week. Mr. Neustadt says that most any man you can meet in Albuquerque these days will inform you that he is coming to Las Vegas this week. The gentleman reports constant growth and a bright outlook in the southern city. He says that at the present time close to a hundred residences and business blocks are in course of construction, and the future outlook is bright.—Las Vegas Optic.

The Death Penalty.
A little thing sometimes results in death. Thus a mere scratch, insignificant cuts or puny boils have paid the death penalty. It is wise to have Bucklen's Arnica Salve ever handy. It's the best Salve on earth, and will prevent fatality, when Burns, Sores, Ulcers and Piles threaten. Only 25c. at all druggists.

A Hard Worker.
Delegate Rodley came home for a vacation, but judging from all indications he found so much work to do that his vacation is destroyed. Our delegate is a hustler.—Roswell Record.

A Perfect Painkiller Pill.
Is the one that will cleanse the system, set the liver to action, remove the bile, clear the complexion, cure headache and leave a good taste in the mouth. The famous little pills for doing such work pleasantly and effectively are Dr. Williams' Little Early Bitters. Beware of cheap imitations. "All other pills I have used griped and sickened, while Dr. Williams' Little Early Bitters are simply perfect." Sold by B. H. Briggs & Co., and S. Vann & Son.

Only Populist Encouragement.
About the only thing that has happened lately to encourage the populists is the news conveyed in a St. Louis dispatch yesterday that a young woman in that city recently starved to death.—Kansas City Star.

Reflections of a Bachelor.
From the New York Press.
If a man is firm with his children their mother hates him for it, and despises him if he isn't.

It is pretty hard work being a good husband and having any respect for your strength of character.

Girls don't worry about when they will be old and have lost their beauty because they think they will be married then.

Somehow a woman doesn't seem to get half as much pleasure out of the nice clothes her children has unless she had to deprive herself to give them to them.

SAN JUAN COUNTY.

From the Farmington Herald.
The San Juan and Animas rivers have both been past fording the past week.

C. P. Helly, county surveyor, is down here this week surveying the fair grounds and race-track.

Second cutting of hay is now being put in the stack, the yield is immense here, where the crop failure is unknown.

J. C. Watts, manager of the canning factory, reports that everything is about ready for starting up.

Heavy showers here visited nearly all parts of the county this week. In some places it did considerable damage to ditches.

One Navajo on the reservation below the hog back is reported to have a crop that will probably equal that of any individual white man on the San Juan. He will have about 40,000 pounds of wheat, 30,000 pounds of corn, besides melons, beans, onions and potatoes.

He is a worker and last year sold 10,000 pounds of wheat to one of the Indian traders near him. We have made some efforts to get at the amount of grain he will have raised under the ditches built last year for the Navajo under the supervision of S. E. Shoemaker. A careful estimate places the wheat that will be raised this year at 100,000 pounds, and 125,000 pounds of corn besides a large quantity of beans and other garden stuff as melons, potatoes, onions, etc.

Taken With Cramps.
Wm. Kriss, a member of the bridge gang working near Littlepage was taken suddenly ill Thursday night with cramps and a kind of cholera. His case was as severe that he had to have the members of the crew wait upon him and Mr. Gifford was called and consulted. He told them he had a medicine in the form of Chamberlain's Colic, Cholera and Diarrhoea Remedy that he thought would help him out and accordingly several doses were administered with the result that the fellow was able to be around next day. The incident speaks quite highly of Mr. Gifford's remedy.—Blair, Iowa, Argus.

This remedy never fails. Keep it in your home, it may save life. For sale by all druggists.

Team Drowned.
Julian Romero, wife and baby while returning from Lincoln Sunday afternoon were caught in a flood, and lost team and buggy. They had crossed below and the creek was in its normal condition, but about the time they reached the middle crossing the flood came down, catching team. The buggy, longie broke, and Romero threw his wife and baby on the bank and struggled out himself, but the team and buggy were carried down, the team drowned and the buggy and harness were torn to pieces.—Capitan News.

A Sweet Breath.

is a never failing sign of a healthy stomach. When the breath is bad the stomach is out of order. There is no remedy in the world equal to Kodol Dyspepsia Cure for curing indigestion, dyspepsia and all stomach disorders. Mrs. Mary S. Crick, of White Plains, Ky., writes: "I have been a dyspeptic for years; tried all kinds of remedies but continued to grow worse. By the use of Kodol I began to improve at once, and after taking a few bottles am fully restored in weight, health and strength and can eat whatever I like." Kodol digests what you eat and makes the stomach sweet. Sold by B. H. Briggs & Co., and S. Vann & Son.

Three Houses Washed Away.
A heavy rain occurred on the other side of Durango mesa last Sunday night. At the little village of San Miguel the water came down the canyon six feet high, washing away three small houses, the inmates barely escaping with their lives. One little boy was washed down the canyon about fifty yards but held to a log until rescued.—Raton Reporter.

Cures Sciatica.
Rev. W. L. Riley, of L. D. Cuba, New York, writes: "After fifteen days of excruciating pain from sciatic rheumatism, under various treatments, I was induced to try Ballard's Snow Liniment; the first application giving me first relief, and the second entire relief. I can give it unqualified recommendation. 25c, 50c, \$1.00. Sold by J. H. O'Reilly & Co."

All in the Family.

There is rather a peculiar newspaper situation up in Quay county. There are two papers, one democratic and the other republican, one is run by an old democrat, the other by a republican. It is edited by his son who boards at home, or at least he remains under the parental roof. The son says that "The Democrats" comes out this week and imparts the campaign with a lot of "hog wash and personal reflections" and the old gentleman calls the other about the gang organ, etc. The young man seems to have the biggest share of the public tap at present, but the old man's lining will come when Parker is elected and the present territorial administration gets jelled out of the saddle.—Otero County Advertiser.

Rheumatism.
When pains or irritation exist on any part of the body, the application of Ballard's Snow Liniment gives prompt relief. E. W. Sullivan, proprietor Sullivan house, El Reno, O. T., writes, June 6, 1902: "I take pleasure in recommending Ballard's Snow Liniment to all who are afflicted with rheumatism. It is the only remedy I have found that gives immediate relief." 25c, 50c, \$1.00. Sold by J. H. O'Reilly & Co.

World's Fair Live Stock City.
The attention of the World's fair management is now in great part focused on the early completion of the Pavilion, Live Stock Congress Hall and barns, covering more than thirty acres, and constituting the "Live Stock City" of the exposition.

The live stock site is on the highest

ground within the exposition enclosure, south of the Palace of Horticulture, and adjoining a station of the intramural railroad, with four street car lines on which passengers can be transported direct. Market cars (through) and the Taylor, Chouteau and Lucile cars by transfer at the Inside Inn.

The "Live Stock City" is a scene of great activity. The army of men and team employed thereon day and night confirms the assurance given by President Francis that complete preparations will be made by the exposition for the display of live stock on the date advertised for the exposition.

For Over Sixty Years.

An old and well tried remedy—Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. It is pleasant to the taste, sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

CHURCH BUILT OF FRUIT.

One of the Old California Missions Reproduced at the World's Fair.

California's agricultural display at the World's fair is so extensive that some of the principal counties have separate exhibits. Santa Clara county has constructed a house of dried fruits, modeled after one of the old Spanish mission churches, built in the early days when California was a part of Mexico. This exhibit is a pavilion of prunes, peaches and apricots, with bottles of wine and olive oil and jars of fruits and grapes as window and corner decorations. The mission style of architecture has been observed throughout with its quaint overhanging eaves, niches and dome for bells.

The building is surrounded by a perfect model of the Lick Observatory on the top of Mount Washington. Dried peaches are used as the main covering of the building, with apricots and prunes as ornaments and corners, and the eaves are made of prunes. The base is made of boxes of dried fruits, such as are prepared for commercial exhibits, and the artistic fruit church serves as a sample room, where buyers may see but not purchase California fruits.

Inside is a free school of instruction, where World's fair visitors are taught how to cook and eat prunes. The first assignment to arrive consisted of thirteen tons of dried prunes, which are being served to visitors free of cost. Coffee made of prunes, figs and grain is also served free in this odd house, the object being to teach the world the value of California fruits, both as food and drink. George E. Hyde, a prominent California fruit man, is in charge of Santa Clara county's unique exhibit.

NEWMAN GUILTY.

Th. Magnetic Healer Is Found Guilty for the Third Time.

Professor J. M. Newman, the magnetic healer and hypnotist, was this morning found guilty by a jury in Justice Peacock's court of practicing medicine without a license. He immediately appealed the case. James M. Hervey appeared for the prosecution and Rev. W. P. Marsh, minister of the Church of Christ, and gospel preacher, defended the healer. This is the third conviction of Dr. Newman in the justice court.—Roswell Record.

Science in Fruit Cooking.

The bright red apples from the state of Washington are attracting considerable attention at the World's fair. Visitors notice this fruit because of its bright colors, large size and superior keeping qualities. These apples are the product of soil which has been scientifically fertilized and irrigated, and are the result of experiments conducted along scientific lines. The soil was supplied with muriate of potash and was otherwise chemically treated, and this superior fruit proves the value of proper fertilization. The fruit is on exhibition at the Palace of Horticulture, and the methods used in bringing it up to so high a standard are explained to visitors who desire to learn how to produce their color fruit scientifically.

Those County Funds.

C. V. Stafford, of Santa Fe, traveling auditor for the territory of New Mexico, was in the city Tuesday and Wednesday of last week, and called upon the county treasurer and county assessor. In speaking of the care of the county funds, Mr. Stafford said that it is probable at the next meeting of the territorial legislature a bill will be presented which will provide for more regular and systematic method whereby the funds of the various counties in the territory will be cared for, and in such a way that the accounting interest will accrue to the benefit of the county and will not be a speculation in the hands of the county treasurer as is now the case in many counties in the territory. This method is now employed for the use and care of the funds of the territory and has proven a very remunerative one, and so would it be with the respective counties. It is a question which is of no small moment to every voter and taxpayer of the territory, as it will prove a saving of hundreds of dollars annually in each individually.—Carlsbad Argus.

Two Proverbs.

A good name is rather to be chosen than great riches, and loving favor rather than silver and gold.

The rich and the poor meet together; the Lord is the maker of them all.—Proverbs 22 1-3.

Ben Schmitt, of the local Santa Fe storehouse, left last night for Chicago. He will be absent from the city a couple of weeks.

NEW MEXICO TOWNS

SANTA FE.

From the New Mexican.

Miss Amy Whitman entertained twelve friends at a Japanese party at the home of her parents, Mr. and Mrs. H. P. Whitman, in honor of Miss Mildred Craig of Albuquerque.

The flood in the canyon yesterday did more damage than was at first reported. The wagons of several immigrants were caught in the turbulent stream and carried down the stream and demolished.

The marriage of John P. Fletcher of Albuquerque and Miss Elizabeth Cross, of Santa Fe, will take place Wednesday, August 15th, at 7:45 o'clock at the church of the Holy Faith, Rev. W. H. Dye officiating.

L. O. Pullen, attorney at law and postmaster at Carlsbad, Elddy county, who has been in camp near the Tesuque, with the camping party of Mrs. Dorothy Moore, of New York, expects to leave on Monday for his southern home.

Ex-Governor L. Bradford Prince has spent the week at the Zuni pueblo in McKinley county, where he made investigations into the history, customs and manners of the Zuni, as well as looked after articles of archaeological and historical interest for the New Mexico Historical society.

On Tuesday afternoon, August 23, will be solemnized the marriage of Miss Pamela Lee Robertson, up to recently a member of the editorial force of the Daily New Mexican, and John C. Halcumb, engineer of the Miners Water Company of El Paso, and also a member of the engineering force of the Santa Fe Central railway.

Reports are current that C. W. Moore, interested in the Yellow Pine Lumber company north of Santa Fe left the city early in the week and his present whereabouts are unknown to friends who are considerably alarmed. It is claimed that Moore on Saturday night last drew \$500 of the company's money, presumably to pay off the men at the mill. He borrowed \$50 at the camp from the cook, gave the foreman \$10 and left. It is said that he lost \$150 over the green cloth. He was seen in Santa Fe late Saturday and asked a friend what time that evening trains left the city.

Stop That Cough.

When a cough, a tickling or an irritation in the throat makes you feel uncomfortable, take Ballard's Horehound Syrup. Don't wait until the disease has gone beyond control. Mr. and Mrs. J. A. Anderson, 334 West Fifth street, Salt Lake City, Utah, writes: "We think Ballard's Horehound Syrup the best medicine for coughs and colds. We have used it for several years; it always gives immediate relief, is very pleasant and gives perfect satisfaction." 25c, 50c, \$1.00. Sold by J. H. O'Reilly & Co.

SILVER CITY.

From the Enterprise.
Matthews & Laird, who have the contract for building the dormitory at the Normal, expect to have the walls of the first floor up by the last of the week.

Mrs. C. W. Byrne and children have gone to Clifton to spend several weeks with Mr. Byrne, who is employed in the company store of the Shannon Copper company.

William Froese returned Wednesday from Clayton, N. M., where he disposed of his ranch and stock preparatory to locating permanently in Silver City. The Froeses came to Silver City about a year ago from Oregon for the benefit of Mrs. Froese's health.

The lowest score made on the home grounds this season resulted from Sunday's game between Silver City and Plaza Alto. Silver City made a run in the second inning and did not score again until the ninth and then only one run. Plaza Alto was shut out completely until the eighth, when she scored a man, making the final result 2 to 1 in Silver City's favor.

A special coach will be attached to the incoming train next Tuesday morning to accommodate the members of company D, who will leave that evening for Las Vegas, where they will participate in the maneuvers and compete with four other companies in the New Mexico National guard for drill and target prizes. All preparations have been made to make the trip going and coming as pleasant and profitable to the boys as possible.

O. C. Hinman has on display in the window of his furniture store a beautiful frame containing the badges secured by W. H. Newcomb during the latter's attendance at the Elks' convocation in Cincinnati. Twenty-one different lodges are represented, and as a result the badges are widely diversified in design, beauty and value. The most valuable badge, intrinsically, in the lot is from Albany, New York, while for the most unique and appropriate, far away Manila certainly surpasses the palm. Chillicothe, Ohio, also furnishes a unique and curiously designed badge. The frame will be placed in the Elks' lodge room in this city.

Puts an End to It All.

A grievous wall often comes as a result of unbearable pain from overtaxed organs. Dizziness, Backache, Liver Complaint and Constipation. But thanks to Dr. King's New Life Pills, they put an end to it all. They are gentle but thorough. Try them. Only 25c. Guaranteed by all druggists.

RATON.

From the Raton.

A fence of brick and stone masonry is at work on a new brick building for D. H. Dwyer on the east side of Second street, near the corner of Cook avenue.

Professor William H. Helvey, superintendent of the city schools, will conduct the Santa Fe city and county teachers' institute which convenes in Santa Fe the 15th of this month. Mr. and Mrs. J. Leaky returned

Thursday of last week from a trip to St. Louis, Chicago and Cincinnati, at which latter place Mr. Leaky represented the Elks' lodge of Elko.

James Hodge and Miss Belle Charles were united in marriage Saturday evening at 8 o'clock at the home of Conductor Reed, Rev. Armstrong officiating. Delicious refreshments were served by Mrs. Reed after the ceremony.

A meeting of the board of directors of the Miners' hospital, the new territorial institution which is nearing completion in Raton, was held in this city Monday afternoon, there being present J. J. Leaky, J. R. Streicher, A. G. Dawson and P. A. Manassero. The Rango will shortly be enabled to admit to its wards some important cases. It will be concerning a proposition, which, if carried through, will be of incalculable advantage to all Colfax county and will make of Raton the leading city of New Mexico.

DeWitt is the Name.

When you go to buy Witch Hazel Salve look for the name DeWitt on every box. The pure, unadulterated Witch Hazel is used in making DeWitt's Witch Hazel Salve, which is the best salve in the world for cuts, burns, bruises, boils, eczema and piles. The popularity of DeWitt's Witch Hazel Salve, due to its many cures, has caused numerous worthless counterfeits to be placed on the market. The genuine bears the name E. C. DeWitt & Co., Chicago. Sold by B. H. Briggs & Co., and S. Vann & Son.

LAS CRUCES.

From the Republican.

Mrs. W. E. Baker and sons, Stuart and Roy, are visiting relatives in Keokuk, Ia.

A Chinaman was sentenced to deportation to China by Judge Parker at his chambers Saturday night.

The ditch and river are booming full, but we are sorry to say that the water is too muddy for alfalfa irrigation.

We learn that the body of a man was found at Otero and from all appearances having been dead several days. The coroner and jury left for the place.

C. E. Miller of Anthony has just purchased the stock of Spencer Kirtley, recently declared bankrupt, paying 27 cents on the dollar of appraised value.

J. C. Carrera writes to a friend that the weather in Paris is hot and moist. He is having good success in promoting his mining project and will be back about the 10th of October.

The Continental Oil company has just installed two large gasoline tanks for the use of J. H. McElroy, who is its local agent. This shows the extensive use of gasoline in this town.

Merline

Restores the bile more fluid and thus helps the blood to flow; it affords prompt relief from biliousness, indigestion, sick and nervous headaches, and the over-indulgence in food and drink. Merline acts quickly, a dose after meals will bring the patient into a good condition in a few days.

C. L. Caldwell, Agt. M. K. and T. R. R. Chouteau, Ind. Terr., writes, April 18, 1903: "I was sick for over two years with enlargement of the liver and spleen. The doctors did me no good, and I had given up all hopes of being cured, when my druggist advised me to use Merline. It has made me sound and well." 50c. Sold by J. H. O'Reilly & Co.

SAN MARCIAL.
